## GKS-PERFEKT ►► Safe lifting, effortless moving

Georg Kramp founded the enterprise as a trading company for machine and precision tools in Stuttgart-Bad Cannstatt.

Purchase of our own company building in Fellbach with approx. 2000 m<sup>2</sup> of office and showroom space.

Distribution in the USA begins (Charlotte, NC).

January 2000: Moving into the production facilities in Fellbach with 1200 m<sup>2</sup> of production floor space.

Expansion of the company building to 3500 m<sup>2</sup>.

1950

1967

1971

1975

2000

2000

Registration of several patents (European) and subsequent granting for GKS lifting jack.

Building up the international sales unit for GKS-PERFEKT lifting and moving solutions.

Acquisition of an office building (adjacent building) with an additional 2500 m<sup>2</sup>.

First participation in trade fairs in Southeast Asia and India.

**50  
JAHRE**

Anniversary Event in October for 50 Years of Georg Kramp.

**GKS-PERFEKT ►► Company history**

Changing the legal status of the company to a GmbH & Co. KG with Doris Kramp as the Managing Director.

Implementation of ISO certification according to DIN.

Continuous growth of our sales presence in the United States of America with warehousing and high delivery availability.

Introducing the battery-powered ROBOT transport module as a world first.

Establishing an additional sales office in Mexico with an expanded distribution warehouse.

Participating at trade fairs in Stuttgart at the LogiMAT and AMB as well as the world's leading trade exhibition Bauma in Munich, where the innovative ROBOT-40 "drive and lift" was introduced.

2003 2007 2008 2009 2010 2011 2014 2015 2016 2017 2018

In September, 40th anniversary of the GKS-PERFEKT lifting and moving solutions.

Developing an electric, remote operated ROBOT transport module.

Progression and launch of the GKS-PERFEKT ROBOT-40 with an introduction at various trade fairs.

Expanding / Updating the machine program: AVIA, SERRMAC, MEXPOL  
Restructuring the tool trading business: ZENTRA, KARNASCH, TANOI, SPPW, POREBA.

Further development of ROBOTS within platform and enhanced special designs.

## GKS-PERFEKT ►► Safety and certified quality for effortless moving

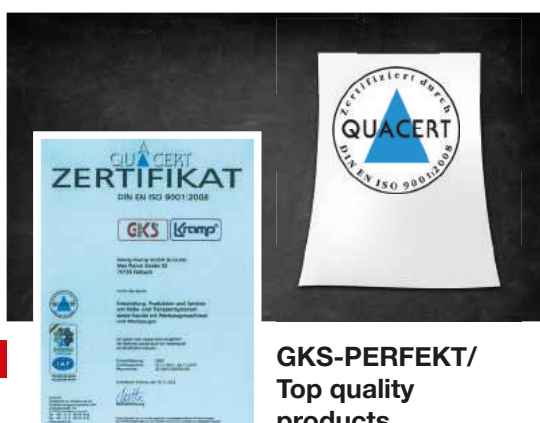

### The Original

Since 1967 the GKS-PERFEKT was the Original in the industry; this pioneer's name is synonymous with a complete, well-rounded program for safe lifting and effortless moving of the heaviest of loads. Throughout the world, our hydraulic jacks and transport trolleys master a wide variety of tasks of any magnitude when heavy loads have to be moved on the premises.

### Our history

We make the difficult effortless! That has been the motto of GKS-PERFEKT for over 50 years. The inventor of the first toe jack, the Georg Kramp GmbH & Co. KG, has been developing and building professional lifting and moving transport trolleys with up to a 200-t capacity as early as 1967 in Fellbach, close to Stuttgart under the GKS-PERFEKT label.

The concept, which began in 1950 as a pioneering feat of the company founder Georg Kramp, has in the last few years developed into an international company, renowned for its quality guarantees. Over the last eight years a separate sales office has been established in the United States of America with ample warehousing to supply the North-, Central- and South American markets as well as Canada.

### GKS-PERFEKT/ Top quality products

Our operation is certified to DIN EN ISO 9001:2015, meaning it applies state-of-the-art manufacturing methods and thus is able to reach consistently high quality standards. Each jack and moving trolley must pass rigorous testing before delivery. The jacks are delivered with a test certificate and a sticker stating its next required service date. Our transport trolleys are all powder-coated rather than painted.

### GKS-PERFEKT/ Customer orientation and expert advice

We deliver a perfect solution for whatever your heavy-duty transport requirements may be.

Professional and fast. Either from our standard product range for heavy loads up to 120 t or as a custom solution for heavy loads up to 200 t.

## Company philosophy

We continuously strive for improvement, even of our best products, to ensure the highest quality of our product line. From the beginning, our goal has been to realize the best possible way to lift, move and remain user friendly. The global distribution of our lifting and transport trolleys has made our cross-cultural approach possible and helps us to keep developing our products for ever easier and more sensible handling. Meeting the needs of the individual customer is important to us. A number of custom modifications of our products have been designed to address these requirements of industry and commerce. We are open to and actively participate in the ongoing social and technological changes. In fact, we see change as an opportunity to further develop the quality of our products and services for our customers. This includes sustainable investments in innovation, to further develop our strong points. It is our aim to build a successful, profitable relationship between us, our customers, employees and partner companies.

This is what we stand for and what we continue to evolve towards.

Our products are sold worldwide and we are particularly proud that our ROBOTS are used not only in mechanical engineering and machine construction, but also in the chemical industry, in the IT sector, in BIO or medical engineering (i.e. cleanroom equipment), e.g. to move computer tomography equipment.

## Employees

The company's success depends on our employees. That is why we invest in training and support the talent and experience of our staff through long-term employment relationships. It is important to us that our employees utilize their abilities and knowledge to the fullest and can be involved in shaping the company. Our company culture is characterized by a philosophy of designing and creating as a team of self-motivated employees, tackling even the most challenging of tasks.

**5 Jahre  
Gewähr-  
leistung**

**GKS-PERFEKT/  
Warranty  
and service**

Our products include a 5-year limited warranty according to our current warranty conditions if used as directed and as described in our product manuals, with the exception of our ROBOT (warranty 24 month, battery 450 charging cycles). Our products are supplied ready to use. Our toe jacks are marked with the 5-year warranty certification mark/CE (2-year warranty for the Twinlifter).

## Maintenance

Should you have questions about the use of our equipment, maintenance, spare parts availability or for quick repair service, simply contact our sales office. More information, technical details or company news can be found on our homepage.

# Hydraulic Toe Jacks

V / V-EX / G / U

# Hydraulic Toe Jacks

## V / V-EX / G / U

GKS-PERFEKT hydraulic toe jacks meet the highest quality standards. For decades our equipment has been proven worldwide to be exceptionally robust and durable. Our jacks are 100% tested and approved before leaving the factory to assure proper functionality and appearance. The customer receives a ready to use, practical device for multi-purpose applications at any given site, such as the factory floor, the shop, outside or in production.

### FEATURES

- High-quality materials
- Precision guideways
- Our well-proven, die-forged and hight-adjustable safety toe with high safety margin
- Test mark BGV D8 (DE), ANSI/ASME (US)
- Modular design for easy repair/maintenance
- Lifetime technical support
- Especially low loading height, as low as 15 mm

## Toe Jack V5 ►► For heavy loads up to 5 tons

### Features:

- Forged safety toe, made of high-strength, hardened and tempered high-quality steel
- Forging yields a very high safety margin (exceeds the EU Directive 2006/42/EC)
- A peg on the back secures correct insertion
- Using the hand pump PV with 2 jacks or electric pump PE with 4 jacks or Quadro synchronous lifting device can double/quadruple the load capacity.

### Technical data

#### V5

Item number	10181
Full load capacity	50 kN (5 t)
Working pressure	520 bar
Minimum loading height using safety toe	15 mm
Lifting height	140 mm
Adjustable range of safety toe	3 x
Loading height using top plate	252 mm
Overall dimensions (L x W x H)	285 x 235 x 252 mm
Tare weight in kg with oil fill	21 kg

## Toe Jack V10 ►► For heavy loads up to 10 tons

### Features:

- Forged safety toe, made of high-strength, hardened and tempered steel
- Forging yields a very high safety margin (exceeds the EU Directive 2006/42/EC)
- A peg on the back secures correct insertion
- Using the hand pump PV with 2 jacks or electric pump PE with 4 jacks or Quadro synchronous lifting device can double/quadruple the load capacity.

### Technical data

#### V10

Item number	10182
Full load capacity	100 kN (10 t)
Working pressure	520 bar
Minimum loading height using safety toe	20 mm
Lifting height	160 mm
Adjustable range of safety toe	4 x
Loading height using top plate	310 mm
Overall dimensions (L x W x H)	357 x 260 x 310 mm
Tare weight in kg with oil fill	32 kg

## Toe Jack V15 ►► For heavy loads up to 15 tons

### Features:

- Forged safety toe, made of high-strength, hardened and tempered steel
- Forging yields a very high safety margin (exceeds the EU Directive 2006/42/EC)
- A peg on the back secures correct insertion
- Using the hand pump PV or electric pump PE with two or more jacks can double/quadruple the load capacity.

### Technical data

#### V15

Item number	10183
Full load capacity	150 kN (15 t)
Working pressure	520 bar
Minimum loading height using safety toe	25 mm
Lifting height	160 mm
Adjustable range of safety toe	4 x
Loading height using top plate	318 mm
Overall dimensions (L x W x H)	403 x 320 x 318 mm
Tare weight in kg with oil fill	53 kg

## Toe Jack V20 ►► For heavy loads up to 20 tons

### Features:

- Easily roll our toe jacks by tilting the units onto their transport wheels, saving your strength and back
- Quick lift with triple the travel per lift

### Technical data

#### V20

Item number	10184
Full load capacity	200 kN (20 t)
Working pressure	520 bar
Minimum loading height using safety toe	30 mm
Lifting height	160 mm
Adjustable range of safety toe	3 x
Loading height using top plate	325 mm
Overall dimensions (L x W x H)	425 x 326 x 325 mm
Tare weight in kg with oil fill	72 kg

## Toe Jack V5-EX ►► For heavy loads up to 5 tons

### Features:

- For difficult to access spaces and where a safety distance is required
- Up to two hydraulic jacks can be operated with the hand pump PV or (up to four jacks) with the electric pump PE
- only for use with an external pump

### Technical data

	V5-EX
Item number	10185
Full load capacity	50 kN (5 t)
Working pressure	520 bar
Minimum loading height using safety toe	15 mm
Lifting height	140 mm
Adjustable range of safety toe	3 x
Loading height using top plate	252 mm
Overall dimensions (L x W x H)	227 x 212 x 252 mm
Tare weight in kg	17 kg

## Toe Jack V10-EX ►► For heavy loads up to 10 tons

### Features:

- For difficult to access spaces and where a safety distance is required
- Up to two hydraulic jacks can be operated with the hand pump PV or (up to four jacks) with the electric pump PE
- only for use with an external pump

### Technical data

#### V10-EX

Item number	10186
Full load capacity	100kN (10 t)
Working pressure	520 bar
Minimum loading height using safety toe	20 mm
Lifting height	160 mm
Adjustable range of safety toe	4 x
Loading height using top plate	310 mm
Overall dimensions (L x W x H)	280 x 237 x 310 mm
Tare weight in kg	27 kg

**Toe Jack V30-EX ►► For heavy loads up to 30 tons**

**Features:**

- For difficult to access spaces and where a safety distance is required
- Operated with the hand pump PV (one jack) or with the electric pump PE (up to two jacks)
- only for use with an external pump

**Technical data**

**V30-EX**

Item number	11140
Full load capacity	300 kN (30 t)
Minimum loading height using safety toe	40 mm
Working pressure	430 bar
Lifting height	156 mm
Adjustable range of safety toe	2 x
Loading height using top plate	330 mm
Overall dimensions (L x W x H)	454 x 400 x 330 mm
Tare weight in kg	105 kg

## Toe Jack V5K-EX ►► For heavy loads up to 5 tons

### Features:

- Low build with solid feet on both sides
- Up to two hydraulic jacks can be operated with the hand pump PV or (up to four jacks) with the electric pump PE
- only for use with an external pump

### Technical data

	V5K-EX
Item number	10187
Full load capacity	50 kN (5 t)
Working pressure	520 bar
Minimum loading height using safety toe	15 mm
Lifting height	105 mm
Maximum lifting height for toe 1 / toe 2	120 / 220 mm
Loading height using top plate	190 mm
Overall dimensions (L x W x H)	210 x 215 x 190 mm
Tare weight in kg	12 kg

## Toe Jack V10K-EX ►► For heavy loads up to 10 tons

### Features:

- Low build with solid feet on both sides
- Up to two hydraulic jacks can be operated with the hand pump PV or (up to four jacks) with the electric pump PE
- only for use with an external pump

### Technical data

#### V10K-EX

Item number	11889
Full load capacity	100kN (10 t)
Working pressure	520 bar
Minimum loading height using safety toe	20 mm
Lifting height	110 mm
Maximum lifting height for toe 1 / toe 2	130 / 220 mm
Loading height using top plate	210 mm
Overall dimensions (L x W x H)	260 x 287 x 210 mm
Tare weight in kg	24 kg

## Toe Jack V5KK-EX ►► For heavy loads up to 5 tons

### Features:

- Extremely low build for enclosed machines
- Compact dimensions, low design, low weight but 50 kN full-load capacity. This toe jack is ideal for low-built machines with sheet metal enclosures.
- Even difficult to access spaces can be met with a hydraulic hose, quick-release coupling and a model PV-K hand pump. Up to two jacks can be connected.
- This jack is your first choice if workplace safety is of utmost importance and the load must be lifted from the distance.
- Using a screwed guideways design diminishes wear and the components are easy to replace
- only for use with an external pump

### Technical data

#### V5KK-EX

Item number	13701
Full load capacity	50 kN (5 t)
Working pressure	520 bar
Minimum loading height using safety toe	15 mm
Lifting height	30 mm
Loading height using top plate	97 mm
Overall dimensions (L x W x H)	160 x 164 x 97 mm
Tare weight in kg	7 kg

## Toe Jack G5 ►► For heavy loads up to 5 tons

### Features:

- Specially designed for maintenance purposes on fork lift trucks and other industrial vehicles
- Outstanding stability due to solid feet and an extended grooved safety toe

### Technical data

	G5
Item number	10189
Full load capacity	50 kN (5 t)
Working pressure	520 bar
Minimum loading height using safety toe	30 mm
Lifting height	140 mm
Adjustable range of safety toe	3 x
Loading height using top plate	265 mm
Overall dimensions (L x W x H)	397 x 255 x 265 mm
Tare weight in kg with oil fill	30 kg

## Toe Jack G10 ►► For heavy loads up to 10 tons

### Features:

- Specially designed for maintenance purposes on fork lift trucks and other industrial vehicles
- Outstanding stability due to solid feet and an extended grooved safety toe

### Technical data

#### G10

Item number	12378
Full load capacity	100 kN (10 t)
Working pressure	520 bar
Minimum loading height using safety toe	30 mm

## Unilifter U6 ►► For heavy loads up to 6 tons

### Features:

- An all-purpose toe jack for horizontal and vertical use

### Technical data

	U6
Item number	13292
Full load capacity	60 kN (6 t)
Working pressure	720 bar
Minimum loading height using safety toe	18 mm
Lifting height	115 mm
Loading height using top plate	265 mm
Overall dimensions (L x W x H)	306 x 146 x 265 mm
Tare weight in kg with oil fill	15 kg

## Synchronous lifting device Quadro 60 ►► For heavy loads up to 60 tons

### Features:

- The synchronous lifting device secures synchronous lifting or lowering of loads regardless of weight distribution. It has been designed specifically for four of our standard toe jacks, max. models V15 / V15EX, which results in a total lifting capacity of up to 60 t.
- The toe jacks can be set to the desired positions individually from the control panel, in case of differing loading heights, and then be raised synchronously.
- The operation is carried out via an electric pump with remote control.
- The toe jacks are connected via 8 m long hoses, which are stored on four hose reels, equipped with an automatic retraction system.
- The system includes a heavy-duty trolley.

### Technical data

### Quadro 60

Item number	13826 *
Max. load capacity	600 kN (60 t) **
Working pressure	520 bar
Compatible with four toe jacks each	For GKS toe jacks V5 to V15 and V5-EX to V15-EX
Hydraulic unit	Electric pump PE ***
Dimensions (L x W x H)	2000 x 800 x 1480 mm
Hose connection	4 x 8 m ****
Total weight	400 kg *****

\* Toe jacks are not included with the supply

\*\* Depending on the size of the toe jack

\*\*\* Other pump sizes are possible

\*\*\*\* Custom lengths available on request, depending on hose connection, coupling + quick-release fastener

\*\*\*\*\* Depending on accessories / toe jacks

# Hydraulic Hand Pumps PV and Electric Pumps PE

# Hydraulic hand pumps PV and electric pumps PE

The hydraulic hand pump PV and the electric pump PE enable the use of two or more toe jacks together. The full load capacity can be doubled or quadrupled this way. Plus, it facilitates working from the distance without risk of injury.

## Hand pump PV

## Electric pump PE

## Hydraulic Hand Pumps PV

### Features:

- Standard with 2 x 2 m hydraulic hoses with non-drip quick-release fasteners
- Options: Gauge, shut-off needle valve, extended hydraulic hoses

### Technical data

	PV
Item number	10198
Working pressure (preset)	520 bar
Flow rate stage 1 per lift	42 cm <sup>3</sup> / 30 bar
Flow rate stage 2 per lift	2.6 cm <sup>3</sup> / 520 bar
Tank capacity	2.25 l
Overall dimensions (L x W x H)	645 x 143 x 175 mm
Tare weight in kg incl. oil fill (without hoses)	12 kg
Hydraulic hose (2 m), quick-release fastener	2
For GKS toe jack models	each 2 x V5, V5-EX, V5K-EX, V10, V10-EX, V15, V20, 1 x V30-EX*

## Hydraulic Hand Pump PV- K

### Features:

- Standard with 2 x 2 m hydraulic hoses with non-drip quick-release fasteners
- Options: Gauge, shut-off valve, extended hydraulic hoses

### Technical data

#### PV-K

Item number	10197
Working pressure (preset)	520 bar
Flow rate stage 1 per lift	5 cm <sup>3</sup> / 30 bar
Flow rate stage 2 per lift	1.2 cm <sup>3</sup> / 520 bar
Tank capacity	0.33 l
Overall dimensions (L x W x H)	418 x 111 x 123 mm
Tare weight incl. oil fill (without hoses)	3 kg
Hydraulic hose (2 m), quick-release fastener	2
For GKS toe jack models	2 x V5KK-EX, V5K-EX, V10K-EX

## Hydraulic Electric Pump PE

### Features:

- Standard model including remote control, pressure gauge, 2/2 directional control valves for single-acting cylinders and 2 x 3 m hydraulic hoses with non-drip quick-release fasteners on both sides.

### Technical data

	PE
Item number	10199
Working pressure (preset)	520 bar
Flow rate stage 1 7 bar	2.5 l / min
Flow rate stage 2 520 bar	0.3 l / min
Tank capacity*	4.7 l
Overall dimensions (L x W x H)	286 x 237 x 493 mm
Tare weight in kg incl. oil fill (without hoses)	30 kg
Hydraulic hose (3 m), quick-release fastener	2
Electrical connection	230 V / 50 Hz
For GKS toe jack models	2 x V5, V5-EX, V5K-EX, G5, V10, V10K, V10-EX, V15, V20, V30-EX

\* Optional 9.5 l tank

## Hydraulic Electric Pump PE2

### Features:

- Like PE, but with added 2-way manifold including 2 male couplings and 2 needle valves for sensitive lifting and lowering.

Technical data	PE2
Item number	13591
Working pressure (preset)	520 bar
Flow rate stage 1 7 bar	2.5 l / min
Flow rate stage 2 520 bar	0.3 l / min
Tank capacity*	4.7 l
Overall dimensions (L x W x H)	434 x 296 x 493 mm
Tare weight in kg incl. oil fill (without hoses)	35 kg
Hydraulic hose (3 m), quick-release fastener	2
Electrical connection	230 V / 50 Hz
For GKS toe jack models	2 x V5, V5-EX, V5K-EX, G5, V10, V10K, V10-EX, V15, V20, V30-EX

\* Optional 9.5 l tank

## Electric Pump PE4

### Features:

- Like PE2, but with 4-way manifold and 4 x 3 m hoses.
- Optional: extended hose lengths, bigger oil reservoir (9.5 l) \*

### Technical data

	PE4
Item number	13592
Working pressure (preset)	520 bar
Flow rate stage 1 7 bar	2.5 l / min
Flow rate stage 2 520 bar	0.3 l / min
Tank capacity*	4.7 l
Overall dimensions (L x W x H)	434 x 296 x 493 mm
Tare weight in kg incl. oil fill (without hoses)	44 kg
Hydraulic hose (3 m), quick-release fastener	4
Electrical connection	230 V / 50 Hz
For GKS toe jack models	4 x V5, V5-EX, V5K-EX, G5, V10, V10K, V10-EX, V15, V20, 2 x V30-EX

\* Optional 9.5 l tank

# Transport Trolleys

F / L / TL

# Transport Trolleys

## F / L / TL

Our GKS-PERFEKT transport trolleys for loads up to 120 t have proven themselves worldwide over many decades. The set, consisting of the steerable trolley L and the rear trolley F, offers 3-point support, which makes it the perfect solution for safe transport. Long or bulky loads can be moved just as safely with the tandem trolleys TL. Various wheel linings facilitate a wide range of applications from use on sensitive flooring to heavily contaminated surfaces.

### Steerable trolley L 9

### Fixed rear trolley F 9

## Transport Trolleys F3 / L3 ►► For heavy loads up to 6 tons

### Features:

- Sturdy construction
- Extremely low loading height: 110 mm
- All trolleys with the same loading height can be combined
- High durability wheels have been tested for years
- Handles with eyes, made from especially robust materials, includes towing eye (not F3)

Technical data	F3	L3
Item number	10206	10207
Loading height / number of wheels (85 x 85 mm)	110 mm / 4	110 mm / 4
Contact surface per cartridge	150 x 150 mm	–
Connecting bar	300 – 1000 mm	–
Swivel plate ø 170 mm, steering angle	–	± 90°
Steering rod	–	950 mm
Overall dimensions (L x W)	–	270 x 230 mm
Tare weight	15 kg	12 kg
Load Capacity	30 kN (3 t)	30 kN (3 t)
Total load capacity	60 kN (6 t)	

## Transport Trolleys F6 / L6 ►► For heavy loads up to 12 tons

### Features:

- Sturdy construction
- Extremely low loading height: 110 mm
- All trolleys with the same loading height can be combined
- High durability wheels have been tested for years
- Handles with eyes, made from especially robust materials, includes towing eye

### Technical data

	F6	L6
Item number	10208	10209
Loading height / number of wheels (85 x 85 mm)	110 mm / 8	110 mm / 8
Contact surface per cartridge	200 x 220 mm	–
Swivel plate ø 170 mm, steering angle	–	± 90°
Steering rod	–	1080 mm
Overall dimensions (L x W)	–	610 x 520 mm
Tare weight	30 kg	41 kg
Load Capacity	60 kN (6 t)	60 kN (6 t)
Total load capacity	120 kN (12 t)

## Transport Trolleys F9 / L9 ►► For heavy loads up to 18 tons

### Features:

- Can be combined with the Tandem trolleys TL6 / TL12 or Rotating trolleys RL2 / 4 / 6
- Extremely low loading height: 110 mm

Technical data	F9	L9
Item number	11070	11071
Loading height / number of wheels (85 x 85 mm)	110 mm / 12	110 mm / 12
Contact surface per cartridge	320 x 200 mm	–
Swivel plate ø 170 mm, steering angle	–	± 90°
Steering rod	–	1080 mm
Overall dimensions (L x W)	–	840 x 583 mm
Tare weight	43 kg	59 kg
Load Capacity	90 kN (9 t)	90 kN (9 t)
Total load capacity	180 kN (18 t)	

## Transport Trolleys F12 / L12 ►► For heavy loads up to 24 tons

### Features:

- Can be combined with the Tandem trolleys TL6 / TL12 or Rotating trolleys RL2 / 4 / 6
- Extremely low loading height: 110 mm
- All trolleys of the product ranges F / L3 to F / L18 can be combined with each other

Technical data	F12	L12
Item number	10312	10313
Loading height / number of wheels (85 x 85 mm)	110 mm / 16	110 mm / 16
Contact surface per cartridge	200 x 407 mm	–
Swivel plate ø 170 mm, steering angle	–	± 90°
Steering rod	–	1080 mm
Overall dimensions (L x W)	–	1030 x 620 mm
Tare weight	52 kg	80 kg
Load Capacity	120 kN (12 t)	120 kN (12 t)
Total load capacity	240 kN (24 t)

## Transport Trolleys F18 / L18 ►► For heavy loads up to 36 tons

### Features:

- Can be combined with the Tandem trolleys TL6 / TL12 or Rotating trolleys RL2 / 4 / 6
- Extremely low loading height: 110 mm

Technical data	F18	L18
Item number	10215	10216
Loading height / number of wheels (85 x 85 mm)	110 mm / 16	110 mm / 16
Contact surface per cartridge	200 x 407 mm	–
Swivel plate ø 170 mm, steering angle	–	± 90°
Steering rod	–	1080 mm
Overall dimensions (L x W)	–	1030 x 620 mm
Tare weight	55 kg	82 kg
Load Capacity	180 kN (18 t)	180 kN (18 t)
Total load capacity	360 kN (36 t)	

## Transport Trolleys F20 / L20 ►► For heavy loads up to 40 tons

### Features:

- Heavy-duty transport trolleys F / L20 to F / L60 for loads of 40 to 120 tons
- Loading height: 180 mm
- All trolleys of the product ranges F / L20 to F / L60 can be combined with each other

Technical data	F20	L20
Item number	11060	11061
Loading height / number of wheels (140 x 85 mm)	180 mm / 8	180 mm / 8
Contact surface per cartridge	280 x 220 mm	–
Swivel plate ø 250 mm, steering angle	–	± 90°
Steering rod	–	1620 mm
Overall dimensions (L x W)	–	747 x 800 mm
Tare weight	81 kg	170 kg
Load Capacity	200 kN (20 t)	200 kN (20 t)
Total load capacity	400 kN (40 t)

## Transport Trolleys F30 / L30 ►► For heavy loads up to 60 tons

### Features:

- Can be combined with all trolleys of identical loading height
- Two connecting bars for greater stability

Technical data	F30	L30
Item number	11992	11993
Loading height / number of wheels (140 x 85 mm)	180 mm / 12	180 mm / 12
Contact surface per cartridge	290 x 320 mm	–
Swivel plate ø 250 mm, steering angle	–	± 90°
Steering rod	–	1620 mm
Overall dimensions (L x W)	–	820 x 952 mm
Tare weight	128 kg	214 kg
Load Capacity	300 kN (30 t)	300 kN (30 t)
Total load capacity	600 kN (60 t)	

## Transport Trolleys F40 / L40 ►► For heavy loads up to 80 tons

### Features:

- Can be combined with all trolleys of identical loading height
- Two connecting bars for greater stability

Technical data	F40	L40
Item number	11770	11771
Loading height / number of wheels (140 x 85 mm)	180 mm / 16	180 mm / 16
Contact surface per cartridge	370 x 370 mm	–
Swivel plate ø 250 mm, steering angle	–	± 90°
Steering rod	–	1620 mm
Overall dimensions (L x W)	–	1204 x 855 mm
Tare weight	210 kg	264 kg
Load Capacity	400 kN (40 t)	400 kN (40 t)
Total load capacity	800 kN (80 t)	

## Transport Trolleys F60 / L60 ►► For heavy loads up to 120 tons

### Features:

- Can be combined with the Tandem trolleys of identical loading height
- Two connecting bars for greater stability

Technical data	F60	L60
Item number	10226	10227
Loading height / number of wheels (140 x 85 mm)	180 mm / 24	180 mm / 24
Contact surface per cartridge	390 x 440 mm	–
Swivel plate ø 340 mm, steering angle	–	± 90°
Steering rod	–	1620 mm
Overall dimensions (L x W)	–	835 x 1690 mm
Tare weight	290 kg	435 kg
Load Capacity	600 kN (60 t)	600 kN (60 t)
Total load capacity	1200 kN (120 t)	

## Transport Trolleys TL6 ►► For heavy loads up to 6 tons

### Features:

- Ideally suited for loads, when 4-point support is required
- Can be combined with all F trolleys of identical loading height

### Technical data

	TL6
Item number	10229
Loading height / number of wheels (85 x 85 mm)	110 mm / 8
2 swivel plates ø 170 mm, steering angle	± 50°
7 x adjustable	550-1150 mm
Steering rod with eye for pulling	960 mm
Tare weight	54 kg
Load Capacity	60 kN (6 t)

## Transport Trolleys TL12 ►► For heavy loads up to 12 tons

### Features:

- Ideally suited for loads, when 4-point support is required

### Technical data

	TL12
Item number	10230
Loading height / number of wheels (85 x 85 mm)	110 mm / 16
2 swivel plates ø 170 mm, steering angle	± 40°
3 x adjustable	660-1000 mm
Steering rod with eye for pulling	1080 mm
Tare weight	105 kg
Load Capacity	120 kN (12 t)

## Transport Trolleys TL20 ►► For heavy loads up to 20 tons

### Features:

- Smaller turn radius is achieved by using a Tandem trolley in the front and rear
- Can be combined with all F trolleys of identical loading height

### Technical data

	TL20
Item number	11803
Loading height / number of wheels (140 x 85 mm)	180 mm / 8
2 swivel plates $\varnothing$ 170 mm, steering angle	$\pm 45^\circ$
3 x adjustable	1260-1600
Steering rod with eye for pulling	1620 mm

## Transport Trolleys TL40 ►► For heavy loads up to 40 tons

### Features:

- A small turn radius can be realized with two Tandem trolleys (front and back)

### Technical data

	TL40
Item number	11148
Loading height / number of wheels (140 x 85 mm)	180 mm / 16
2 swivel plates ø 250 mm, steering angle	± 45°
3 x adjustable	1260-1600
Steering rod with eye for pulling	1620 mm
Tare weight	260 kg
Load Capacity	400 kN (40 t)

## Transport Trolleys TL60 ►► For heavy loads up to 60 tons

### Features:

- Smaller turn radius is achieved by using a Tandem trolley in the front and rear
- Can be combined with trolley F60 for loads up to 120 t

### Technical data

	TL60
Item number	12035
Loading height / number of wheels (140 x 85 mm)	180 mm / 24
2 swivel plates ø 250 mm, steering angle	± 40°
3 x adjustable	1175*
Steering rod with eye for pulling	1620 mm
Tare weight	570 kg

## Container Trolleys F6-c / TL6-c ►► For heavy loads up to 12 tons

### Features:

- Tandem trolley set with 4-point support for quick and secure connecting of trolleys and ISO containers with Twistlock interlocking
- Very low loading height

Technical data	F6-c	TL6-c
Item number	13642	13643
Loading height / wheels (85 x 85 mm) / number of wheels	176 mm / 8	176 mm / 8
Track width / Twistlock	2259 mm	2259 mm
Tare weight	73 kg	118 kg
Load Capacity	60 kN (6 t)	60 kN (6 t)
Total load capacity F+TL	120 kN (12 t)	

## Container Trolleys F12-c / TL12-c ►► For heavy loads up to 24 tons

### Features:

- Tandem trolley set with 4-point support for quick and secure connecting of trolleys with ISO containers with Twistlock interlocking
- Very low loading height

Technical data	F12-c	TL12-c
Item number	14130	14129
Loading height / wheels (85 x 85 mm) / number of wheels	176 mm / 16	176 mm / 16
Track width / Twistlock	2259 mm	2259 mm

**Container Trolleys F20-c / TL20-c ►► For heavy loads up to 40 tons**

**Features:**

- Length and width according to container dimensions (10 Ft, 20 Ft, 40 Ft ...)

Technical data	F20-c	TL20-c
Item number	13293	13294
Loading height / wheels (140 x 85 mm) / number of wheels	230 mm / 8	230 mm / 8
Track width / Twistlock	2259 mm	2259 mm
Tare weight	140 kg	345 kg
Load Capacity	200 kN (20 t)	200 kN (20 t)
Total load capacity F+TL	400 kN (40 t)	

## Special Transport Trolleys Twinlifter TW28 ►► For heavy loads up to 2.8 tons

### Twinlifter TW28

- Ideally suited for transport of bulky and heavy loads such as tool cabinets, control cabinets, safes, crates, machinery, boilers, etc.

Twinlifter	TW28	
Item number	11082 (PA wheels)	13687 (PUR wheels)
Load capacity per pair	28 kN (2.8 t)	
Weight	60 kg	
Lifting height max.	177 mm	
Overall height	1000 mm	
Width	640 mm	
Loading height	5 mm	
Min. wheel diameter of the PA wheels	200 mm	
Length of lashing strap with tension ratchet	8000 mm

# Rotating Trolleys

RL

# Rotating Trolleys RL

GKS-PERFEKT rotating trolleys are available for loads from 1 to 12 tons. Special bearings in our rotating trolleys allows easy moving and rotating 360° in place on its own axis. There is the ability to use three or four rotating trolleys simultaneously. A combination of trolleys L / F / TL is possible, depending on the situation. Available for delivery with connecting bar and steering rod.

## Rotating Trolley RL 4

**To connect several rotating trolleys, connecting bars of various lengths and steering rods are available for delivery on request.**

## Transport Trolleys RL1 ►► For heavy loads up to 1 ton

### Features:

- RL trolleys with the same loading height can be combined, as shown, as 3 or 4-point supports with a connecting bar and steering rod (optional)
- Very low loading height

### Technical data

	RL1
Item number	11456
Number of wheels / dimensions	3 / 75 x 66 mm
Loading height	100 mm
Overall dimensions (L x W x H)	426 x 379 x 100 mm
Tare weight in kg	15 kg
Load Capacity	10 kN (1 t)

## Transport Trolleys RL2 ►► For heavy loads up to 2 tons

### Features:

- RL trolleys with the same loading height can be combined, as shown, as 3 or 4-point supports with a connecting bar and steering rod (optional)
- A version with GKS-ALPERFEKT-PUR wheels is also available for sensitive floors
- Various RL models with the same loading height can be combined

# Remote Operated Battery Operated Transport Modules ROBOT 10 / 20 / 40

# Remote Operated Battery Operated Transport modules ROBOT 10 / 20 / 40

The Remote Operated Transport modules ROBOT 10 / 20 / 40 are used for on-site heavy transports of up to 40 tons or for assembly logistics and can be moved autonomously.

The built-in Lithium-Polymer batteries make operating times of up to 240 minutes possible. The ROBOT is designed for simultaneous steering and driving. The ROBOT is delivered ready-to-use and does not require external power sources.

Our well-proven 3-point supports, consisting of the L-ROBOT and the F trolley as the “rear axle”, facilitate the safe and effortless transport of loads with just the push of a button.

We are happy to demonstrate our ROBOT models either in our factory here or on-site at your facility anywhere in Europe. These transport modules can be built to your specifications, to be used for applications including with platforms, for cleanroom equipment, etc. We can solve any transport challenge. We enjoy a good challenge!

## Transport Module ROBOT-20

**We have more than 100 testimonials from global companies using our ROBOTS to their complete satisfaction.**

## Transport Module ROBOT-10 ►► For heavy loads up to 10 tons

### Features:

- Operating times depend on the loads and the number of starts and stops
- Lithium-Polymer batteries (easily recyclable) for safety; less risk in case of malfunction
- Easy battery replacement thanks to a plug-in system, even under load
- Scope of delivery includes a standard charger (10 hours charging time)

Technical data	L-ROBOT-5	F-ROBOT-5
Item number	14242	13806
Drive	DC motor (24V / 930 W)	–
Rechargeable battery	Lithium-Polymer	–
Reversing signal	Yes	–
Incline max. **	5 %	–
Loading height / number of special heavy-duty wheels	180 mm / 4 (105 mm wide)	180 mm / 4 (85 mm wide)
Dimensions (L x W x H)	992 x 842 x 180 mm	–
Contact surface	Ø 250	135 x 280 mm
Connecting rod adjustable	–	450-1600 mm
Total weight in kg	240 kg	110 kg
Load Capacity	50 kN (5 t)	50 kN (5 t)
Total load capacity	100 kN (10 t)	

It is powered by a 24V Lithium Polymer power pack and a programmable motor control forwards the energy to the two brushless DC motors with a maximum of 930W of power each.

The torque is then transferred to the drive wheels via the transmission box and gearing.

Operating signals are transmitted from the remote control to the motor control unit via a CAN Bus and the current operating state is shown on a display.

The overall system consists of a powered steerable L-ROBOT and the non-driven rigid F-ROBOT. Thus, our proven 3-point support concept. The system operates at two speeds: 11 and 5.5m/min.

\*\* Use a locking device to prevent inadvertent rolling at inclines

## Transport Module ROBOT-20 ►► For heavy loads up to 20 tons

### Features:

- Remote operation via the transmitter on the radio remote control is carried out with two toggle switches for forward and reverse travel
- Proportional travel speed control. Turning the L-ROBOT on the spot under the load is possible. If interference by other frequencies is detected, the control switches off
- Options: Quick-charge unit (4h), charging station for wall mounting, transport box, spare batteries set, toe jack V15 with extended stroke (270 mm)

## ROBOT Applications

- 1 ROBOT-40 magnet for particle accelerator
- 2 ROBOT-40 Windhoff conveyor transport wagon - hydraulic failure
- 3 ROBOT-10 pressure diecast equipment on platform with "drive and lift"
- 4 ROBOT-40 under 40-foot container with approx. 37 t
- 5 ROBOT-10 magnetic accelerator 9 t

# GKS Wheels Selection

# GKS Wheels Selection

Our high-quality GKS-PERFEKT wheels are the result of our own development, innovation and endurance tests. Some of the tests we run are rolling resistance under load, wear and impact resistance.

Our GKS-PERFEKT wheels are equipped with a special PA lining. We also offer wheels with PU lining or made of steel for special applications. The outstanding construction of our standard wheels, consisting of the core and a special lining ensures maximum stability, low weight, best running characteristics and a long service life. The advantage for you: GKS-PERFEKT wheels, designed for your special applications and outstanding floor protection (provided running surfaces are clean). Special wheels are available on request.

## GKS ROBOT wheels

We use special wheels for our ROBOTS. These wheels were developed together with a major wheel manufacturer and are designed to withstand the special requirements.

Both our L-ROBOTS as well as the F-ROBOTS are equipped with these wheels.

## GKS Wheels Selection

### GKS-ALPERFEKT® PREMIUM

Our new standard wheel for trolleys with 110 mm loading height. Thousandfold approved, with a special aluminum alloy core and gripping toothing to increase its service life, 4 ball bearings and special polyamide lining for universal use.

#### Technical Data GKS-ALPERFEKT® PREMIUM

made in GERMANY

# Moving loads easily

## Powerattack-GKS

### **MTC30CC battery DC type :Max. 30 Ton**

- \* 24V Synchronous motor with 1KW Power output
- \* Variable speed control and operation
- \* Forward-backward function, Emergency-stop
- \* 2 BatteryPacks with each 24V/22.5Ah Power output
- \* Lithium-Ion technology (no memory-effect)
- \* Compact length of 1650mm
- \* 2 stage telescoping each 250mm, total 2150mm
- \* 2 wheel aux trolley with the foldable magnetic
- \* 2 adapters; trolley adapter / PUSH adapter
- \* Weight 75kg

### **MTC25C electric AC type :Max. 25 Ton**

- \* 2 electronically controlled variable speeds from 0~5m / min and 0~20m / min
- \* Forward-backward action, with 220V AC
- \* Compact length of 1650mm
- \* 2 stage telescoping each 250mm to a total of 2150mm
- \* 2 wheel aux trolley with the foldable magnetic
- \* 2 adapters; trolley adapter / PUSH adapter
- \* Weight 50kg
